

We wish to thank all of our "Surfers" for their kind messages and inquiries regarding the staff and resort during Hurricane Ian. Please know that conditions in the area and in Florida are still feeling the effects of Hurricane Ian and will continue this way until Friday, September 30, 2022.

Our first priority is certainly the safety of our staff and at this time, we do not believe any of our team members or their families to have been severely affected. The team is currently on-site assessing the resort for damages incurred as a result of Hurricane Ian. At first glance, all damages appear to be minimal. We will continue to evaluate the resort and address any necessary repairs or replacements as needed. Based on what we have seen and what we know at this point, we are thankful that the impact to our resort was minor.

We know our "Surfers" may have questions or concerns about our resort opening date and their upcoming winter reservation and we will do our best in following up with each of you in a timely manner. Please know that once our full assessment is complete we will be posting messages on our [Facebook page](#) and Website to keep all of you informed.
